

Catalog Presentation Nutrimin C RE9 ~ Fresh Cell FC5

You'll notice that I am wearing a watch on each wrist.

This is my **RE9** watch, which represents our fabulous anti-aging line.

The hands on my **RE9** watch go backwards, it reverses time.

Our **RE9** line reduces the visible signs of aging!

The watch on my other wrist is my **FC5** watch, representing our Fresh Cell 5 line.

The hands on this watch are stopped – **FC5** stops the visible signs of aging.

So, if you want to turn back the hands of time and reverse damage,
then the **RE9** line is for you.

If you want to stop time and prevent future damage, then the **FC5** line is for you!

1

RE9 anti-aging line - 9 key anti-aging elements in our **RE9** line and you can see them listed here in our catalog. I'll point out a few that I know will interest you!

- KOJIC ACID – natural skin brightening agent - helps lighten dark spots or age spots.
- COPPER – Helps diminish the appearance of fine lines and
- VITAMIN C - promotes the production of collagen and elastin – leaving your skin to look visibly younger!

Collagen and Elastin - production slows down 65% between ages of 20 - 80.

- **RE9** - natural approach to beautiful skin
- Filled with anti-aging- anti-wrinkle ingredients that help stimulate collagen and elastin production

Pass around - before and after pictures

- The **RE9** Line is a Recipe For Beautiful Skin - Important steps/skin care regime
- Formulated to work together - best results from using entire system
- It's like baking a cake - leave out the eggs/sugar - have a cake - not a very good one.

2

(You may choose to pass products, except the wash, for people to try on the back of their hand or on their arm)

1 - **Hydrating Wash** - This emollient wash, cleans and hydrates without stripping the skin.

2 - **Balancing Toner** - It immediately restores the Ph Balance which helps your skin fight off bacteria as well as maximizes moisture retention and visibly tones, firms and smoothes the skin's surface.

3 - **Reactivating Facial Serum** - This vitamin cocktail, with Alpha and Beta Hydroxy acids, breaks down the glue that holds the dead skin cells together which allows younger, youthful skin to come through. (Great for age spots and scars).

4 - **RE9 Eye Cream** - Moisturize the delicate skin around your eyes. The skin around your eyes is $\frac{1}{4}$ of the thickness of the rest of your face and needs to be protected and treated differently. Our eye cream helps reduce the appearance of dark circles and puffiness. This is an amazing product!

3

Day Time Protects, Night Time Corrects

- What happens if you put a perfect grape outside and expose it to the wind, the sun and the air? (pause if anyone answers) (play ticket-game).
- That grape will become a raisin. And when your skin is exposed to the elements, unprotected, skin cells become damaged leaving you with visual signs of aging!
- Arbonne's day moisturizer is like a protective shield against the elements which you are exposed to all day long.

5 - **RE9 SPF 8 Daytime Moisturizer** PROTECTS, moisturizes & visibly firms skin all day. At night, it's important to nourish our skin while we sleep. That's the time our body repairs itself.

6 - **RE9 Night Cream** - CORRECTS, nourishes, visibly strengthens and firms your skin while you sleep. Older skin loses the ability to maintain moisture. And we all know that hydrated skin looks younger. NC is amazing because it nourishes your skin while protecting against water loss and encouraging cell recovery while you sleep!

4

7 -Transforming Lift -This is a face lift in a bottle! It tightens your skin gives it a lift for up to a 6 hours. Your skin will feel firmer and have a tighter appearance. Use the lift AFTER the toner. (You can even use it on top of your make-up at the end of the day for a quick “lift” before going out.) This terrific set of 7 products is only \$298.50 and when we are finished I’ll share with you how you can get it for even less. By the way, the lift is free when you purchase the set (normally \$45.50)

8- The Illuminating Enzyme Peel - A must have to complete your RE9 Set An exotic cocktail of natural fruit enzymes that gently exfoliates, but on a very deep level - revealing a more even, velvety complexion and noticeably smoother-looking skin. The reason I love this product is it’s fast, it’s easy and after sleeping with it as night treatment, you will see amazing results in the morning. I use it every other night as my night creme.

9 -The last product that we are going to cover in the RE9 line is our **Anti-Aging Body Set**. This **REactivating body serum** is a pre-moisturizer it contains a special blend of botanicals and it protects the skin against free radical damage. You apply this before you apply the **Refinish Hydrating Body Lotion** - vitaspheres deliver antioxidant vitamins to help protect skin. This product is extremely hydrating - it’s filled with nutrients that help your skin maintain the elasticity - look at the difference the arms in the before and after pictures. Smells wonderful and again - fragrance free - combination of the botanicals.

5

FC5 Product Line

“If you are looking to Pause Time and you’re not yet ready for Anti Aging, then the FC5 products are for you.”

FC5 stands for **Fresh Cell 5**. The cell nutrients from the Kiwi, strawberry, mango, pumpkin and carrot are extracted and remain encapsulated, fresh and untouched until they are applied to the skin. Once applied to your skin, the precious nutrients from the fruits and vegetables are released to revitalize, hydrate and protect your skin!

We are so proud that Arbonne is the only company in North American licensed to use this ground breaking technology.

Think about it! From the time we were little kids, we were always told to eat our fruits and vegetables! And of course, as adults we know that eating a balanced diet with fruits and vegetables will promote a healthy body! Well, the philosophy around the **FC5** is the same! Fruits and Vegetables to nourish your skin.

6

FC5

From the time we are little kids - told to eat fruits/veg - promotes healthy body/skin
The philosophy around the FC5 line is the same. Fruits/Veg - nourish the skin

5 Key Fresh Cell Fruits and Vegetable Benefits:

Kiwi – Extraordinary source of antioxidants.

Strawberry – Known for its purifying and toning properties.

Carrot – Soothes and calms; ripe with B-carotene.

Mango – Nurturing, hydrating fruit.

Pumpkin – Moisturizing properties bursting with B-carotene.

B-carotene is a natural plant pigment with antioxidant skin protection action and promotes healthy cell growth.

FC5 has no artificial fragrance, 100% natural fragrance.

Formulated without: Parabens, Petrolatum, Mineral Oil, Paba, Propylene Glycol, Paraffin, Animal-Derived Ingredients.

7

One of the most obvious signs of aging is dehydration or the loss of the skin's ability to hold water. Water is a key ingredient. The skin cells weaken over time and this causes skin to lose essential hydration and it changes the structure of youthful skin.

If you are looking to stop time and you're not yet ready for Anti Aging, then the FC5 products are for you.

I can talk to you all day long about the Arbonne difference, but the real difference is when you try the products. You'll have a chance to touch, feel and smell our luxurious FC5 products. As I go through our skin care sets, our body products you will really understand the true Arbonne difference.

FC5 provides 5 basic elements of skin care: Hydration, Cleansing, Exfoliation, moisturization and protection. It helps to provide the moisture your skin desires.

***For this next section - you will want to pass around some of the products:**

8
